

FERTIKIT™ 3G

NEXT-GENERATION MODULAR NUTRIGATION™ SYSTEM

Netafim™ is proud to introduce its next-generation Nutrigration system, FertiKit 3G.

Maximizing the usage of vacant water flow rate and pressure on the main irrigation line, the modular system is built on a standard platform and available in four modes across various pressure levels.

FERTIKIT 3G ADVANTAGES

- Modular design with four operating modes
- Unrivaled range of irrigation water capacities
- Up to 6 highly-accurate fertilizer/acid 50-1,000 l/hr (13-265 gal/hr) dosing channels
- Field-proven in all environmental conditions
- Over 5 years of technological know-how and experience
- Cost-efficient solution for soil and substrate applications with minimal investment

FERTIKIT PL

FERTIKIT MS

OPERATING MODES

PB Mainline pressure range of 1-2.5 bar (14.5-36 psi)

PL Mainline pressure range of 2.5-6.5 bar (36-94 psi)

PD Available pressure surplus on the mainline is utilized, thereby eliminating the need for a dosing booster

MS System's outlet is connected upstream the mainline pump, thereby eliminating the need for a dosing booster
